LIBERTY WORKS RADIO NETWORK ON THE AIR AGAIN!

A message from the Fiduciary

Finally, after eight long years of radio silence, LWRN once again hits the airwaves, broadcasting the message of Constitutionally limited government and individual liberty to the American public. On Monday, May 4th, 2009, Liberty Works Radio Network will begin broadcasting over flagship station WIFL-FM (104.3 MHz) in the Ocala/Tampa area of Florida.

More Friends and Affiliates!

At the same time, we are seeking affiliate stations to air our programming. Believe it or not, present financial conditions have increased the likelihood of finding such affiliates. The financial crunch on the marketplace has caused many small businesses to stop broadcasting their ads over local radio stations, and this in turn is beginning to cause many stations to go off the air. We can help save these stations while they help us save our Republic. By broadcasting our ready-to-go programming, these stations will be able to cut back on their overhead and remain in business. We will pursue this effort while membership in the LWRN Fellowship grows to the

point that we can launch the non-commercial side of the LWRN plan. If you haven't yet seen the details of that plan, it can be viewed or read by clicking the *Watch the Video* or *The Radio Network Plan* buttons in the left-hand menu at www.libertyworksradionetwork.com.

On the threshold of this momentous occasion, I want to take the opportunity to give special thanks to those who have made this day possible. We never could have lasted until this time without those selfless Save-A-Patriot Fellowship members who refused to quit. When Judge William Nickerson of the Federal District Court in Baltimore handed down — without a trial — his unlawful and tyrannical injunction order prohibiting SAPF headquarters from providing the services our members had come to rely on and expect, the staunchest Patriots of SAPF remained to carry forward our cause. Not only did they stay, but those same members continued to give generously over the past three years to keep the Fellowship's doors open while we worked toward our LWRN goal. These members will always have a special place in my heart — my true comrades in arms, my brothers and sisters in the Liberty given to us to preserve by God Almighty. They are truly American Patriots, and they have my unending gratitude. We could not have gone this far without YOU!

This broadcast depends on you!

That being said, however, we are not out of the woods yet. We are still dependent on the prompt payment of membership renewal fees as well as the continuing contributions from our members, patrons and sponsors in order to pay our expenses in this critical interim period. We know that with the prospect for success of Liberty Works Radio Network so near at hand, our loyal supporters will not fail us now. And if we all persist in our efforts, LWRN will surely succeed.

To be sure, we faced and will face many obstacles along the way. Yet, in His faithful answer to our prayers, the Lord brought together the right individuals needed to get the job done. Sabatino Cupelli, who has labored with me for the past eight years to keep the dream alive, is putting everything he has on the line, including his radio station, to finally make it a reality. Tommy Cryer, who grasped the LWRN vision, and understood its possibilities, has been working with me almost daily over these

past three years to get the Patriot Community to understand the value and feasibility of the LWRN plan. Bryan Malatesta and Dr. Greg Dixon have been a great help with all their counsel and support. The SAPF staff, who have struggled and sacrificed along with Nancy and I, never gave up on the dream, as they edged us ever closer to our objective. And, of course, we can't forget all those LWRN show hosts who are giving their time and resources to fill the airways with truth, thus making enforcement of our Constitution possible, and bringing sanity and tranquility back to this Land of Liberty!

Please join with me in praying that the Lord will continue to bless the LWRN effort, and cause it to bear fruit that we might achieve our stated goals.

Adopt A HOST!

NOW is the best time for LWRN to be on the air. The current political and economic environment is a breeding ground for discontentment with the *status quo*. Yet, while many are starting to recognize the serious troubles we face, most of the public lacks the necessary understanding of our Constitutional and Christian Liberty-minded heritage to put it into perspective. Those folks who need answers are the prime targets for our Freedom-oriented programming. When they start to understand how far a return to the principles of our Founding Fathers — as articulated in the Declaration of Independence and the Constitution — will go towards solving our current crises, they will no doubt join us to bring that information to others.

Liberty Works has assembled a top-notch slate of hosts who are no ordinary radio jocks, but hosts with plenty of real-world experience in patriot movement issues. Visit the LWRN website www.libertyworksradionetwork.com and

check out the right-hand menu to find links to brief biographies on each of the hosts, see which one you want to hear, and come on board to Adopt that Host. Because here is the rub — until LWRN becomes self-sustaining through recruitment of new members and affiliate stations, these hosts have to pay an hourly broadcast fee for their airtime. Many of these hosts are taking on five, ten, even fifteen hours a week, so these fees are expensive, and many of them are sacrificing much of their personal lives to get information over the airwaves. You can be a great help to any one of them by Adopting a Host. Just sign up as a sponsor and pledge whatever monthly amount you can afford. All funds received are used to directly offset the adopted host's broadcast fees. You will be paying to put your favorite host on the air for others to hear, so you know it will be money well spent.

ship will grow through every station that broadcasts our message of limited government and individual liberty, in the process convincing more and more people to join our ranks. And every person who joins or adopts a host will help to firmly establish this new network and keep it expanding to still more listeners.

There are still a few time slots open as well. So, if you know of any radio host that you think should be broadcasting over the Liberty Works

Radio Network, please provide their contact information to johnkotmair@libertyworksradionetwork.com, or call (410) 857-5444.

With all of us pulling together, we will make Liberty Works Radio Network a success. Most importantly, that success translates to a greater chance to restore our country to its founding principles. And isn't that what it's really all about?

NEWS FROM ...

OPERATION STOP THIEF II A HUGE SUCCESS.

Operation Stop Thief groups have been reporting to Truth Attack that flyers questioning the income tax were handed out at over 1,200 post offices across the nation this year, delivering the truth to over a million last-minute tax return filers.

Attorney Tommy Cryer says reports are coming in from all across the country and they're all good. "T-Troopers" and groups from every sector of the Freedom Movement participated in OST II, coming very close to Truth Attack's goal of doubling last year's 734.

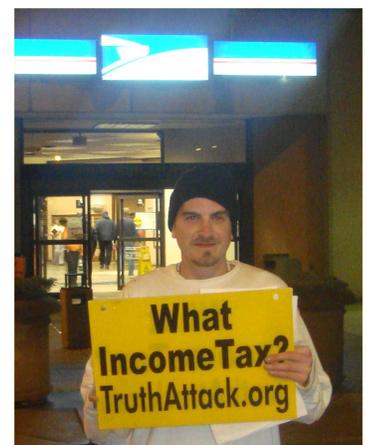

Many groups reported attempts by postal workers to interfere with and discourage posting signs and handing out flyers. (In Baltimore, for example, a late-night postmaster attempted to get the police to move some T-Troopers, but the police did not hamper T-Troopers from handing out flyers.) T-Troopers appear to have persisted in spite of such attempts and handed out well over ONE MILLION flyers.

Tea Party events overshadowed the OST event with the media, but many reported receiving local news coverage, displaying the TruthAttack.org web site to millions of viewers. Quite a few ingenious T-Troopers "decided to make lemonade out of tea bags," says Cryer, by going to Tea Party events with Truth Attack flyers and passing them out among the crowd. There is no telling how many additional flyers were handed out in that way, but one particularly clever T-Trooper managed to maneuver his Truth Attack sign behind Neil Cavuto while he was interviewing Michael Reagan on Fox News.

"Next year's [event] will be even bigger and better and maybe," says Cryer, "just maybe, we won't need one for the year following."

T-Troopers display signs and hand out flyers at the main post office in Shreveport, La. This group handed out nearly 2,000 OST flyers.

A T-Trooper displays his sign at the Baltimore post office. Several T-Troopers braved the cold, rainy night to hand out nearly 800 OST flyers over seven hours.
