

LIBERTY TREE

Vol. 9, No. 12 — November, 2007

Now it's up to you!

By John Baptist Kotmair, Jr.

On November 27, 2007, as expected, the Fourth Circuit Court of Appeals ruled against the Fellowship's and my joint motion to stay the issuance of the mandate. They did not cite any legal reasoning in doing so. They merely stated: "*Upon consideration of submissions relative to the motion to stay mandate, the Court denies the motion. Entered at the direction of Judge Duncan with the concurrence of Judge Wilkinson and Judge Traxler.*"

The seditionist agents of the socialists in the federal government are desperate to try to shut down the Fellowship before we get the radio network up and running. It is now a foot race to reach Americans with the truth via that medium. The right to operate without keeping records for government agencies was expressly recognized by the 1996 federal district court ruling in the Fellowship's suit against the government for return of property they seized in the raid on SAPF. Therefore, unlike other Patriot groups not having the benefit of such an order, they put the Fellowship injunction case on the fast track. They know full well the impact Liberty Works Radio Network will have on the American public, who are increasingly questioning the practices and policies of their governments.

In the meantime, the tyrannical plot to prevent exposure of the elites' seditious deeds is becoming even more widespread, quickly moving into all facets of lawful Patriot activity. On November 14, 2007, the FBI and Secret Service raided NORFED's offices in Evansville, Indiana, taking everything in sight including paper certificates, gold and silver coins, and just-

delivered copper "Ron Paul" coins. A federal court clerk released the affidavit of probable cause before the court ordered it to be sealed. A review of the affidavit makes it clear why the federal judge wanted it sealed. It is hard evidence of a conspiracy to issue a bogus warrant for an illegal search, *since it contains no evidence that a crime had been committed!* This

extreme effort to silence Patriotic dissent, shows how desperate they are becoming in regards

to the growing public awareness of their conspiracy to destroy our Constitutional Republic.

The increasing frequency of these tyrannical acts does not give cause for despair, but rather hope, and even more reason to energize educational activities such as Liberty Works Radio Network. To further this effort, the LWRN promotional DVD is finished and ready for distribution. It comes in a case, which is displayed within this issue of the LT, and contains a promotional article, instructions for you on how to get results from those you target as prospective members, and an application to join the Liberty Works Radio Network Fellowship, now a division of SAPF.

A Patriot lawyer examined the injunction order against the LWRN Fellowship application, and it was his opinion that this activity would not come under the broad and vague injunction order. As stated within the application, LWRNF members are totally separate from SAPF members in that they do not participate in the Member Assistance Program, nor are they eligible for casework or paralegal assistance.

(Continued on page 2)

(Continued from page 1)

Their only participation is their annual donation for the First Amendment operation of the radio network. There are no other requirements, eligibilities or obligations, which insulates them from any exposure of their identity to the seditionists.

I attended the Justice, Peace & Freedom Conference held on November 16th, 17th and 18th in Dallas, Texas, and presented the radio network plan. It was well received, with many pledges of involvement, and the LWRN DVDs sold like hotcakes. Several Patriot group leaders pledged to promote the drive for LWRNF members. All Patriot organizations participating will be afforded free airtime to promote their organization and particular Patriot cause. Finally the Patriot community has come together to work on this most important project.

WE HAVE THE PLAN!!

As soon as enough LWRN Fellowship members are recruited, WIFL, FM 104.3, in Ocala, Florida will be up-linked in stereo to a satellite. Then an inexpensive non-profit FM station, already located, will be purchased, and the stereo up-link will be split into two mono up-links. One mono signal will be for the commercial side (i.e., WIFL), and one mono signal will be for the non-profit side. Due to the fact that the Federal District Court in Baltimore has already declared SAPF to be a First Amendment unincorporated association, there will be no need for requesting that status of the IRS, whether otherwise required or not.

The programming is the same on both up-links, except for commercial breaks. Paid commercials will be broadcast over the WIFL up-link, while requests for donations will be broadcast over the non-profit FM stations.

The expectation for success of this plan is because of the ability to extend the non-profit FM station's reach with what are called "translators." Translators were authorized by the FCC for non-profit FM station use only. They are nothing more than a radio device that picks up the broadcast signal from the satellite and rebroadcasts it within its licensed broadcast area. A translator has its own call letters and frequency, and unless the listener knows otherwise, they would think it was a regular station, with studios and offices.

Because these translators are for non-profit use only, they are very inexpensive, comparatively speak-

ing. Last year, for instance, 94.9 FM, Montville, Connecticut (Market: Hartford/New Britain, Connecticut) was up for sale at an asking price of \$25,000.00 for its license, and this is not an isolated offering. So, as you can see, with 100,000 members donating 99 FRNs (commonly called dollars) the Liberty Works Radio Network can spread the message of Liberty clear across these united States in no time at all.

NOW IT IS UP TO YOU!!

The Liberty Works Radio Network DVD is finished, and Patriot group leaders have come together to help make it a reality. Now all that is needed is for Patriots who espouse patriotic issues and causes to become disseminators of the LWRN promotional DVD to non-member Patriots and other concerned — though perhaps uninformed — citizens, and explain the feasibility of this plan. As I explained to the Patriots attending the Dallas conference, the goal of one hundred thousand recruits is not unrealistic. For instance, one hundred Patriots giving ten prospective members a DVD and application, and requesting the prospects to do the same, could realize one hundred thousand members in three months. In a presidential election year, with discontent brewing in an ever more suspicious public, this goal is definitely achievable. Using the instructions accompanying the DVD, even if the goal of one hundred thousand members is not realized in three months, we will be well on our way to achieving it.

Let's get started today. Time's a-wasting, and the desperate tyrants are moving fast. Order your ten DVD recruitment packages for 5 FRNs each plus shipping, and go to it.

Reliving America's Heritage
18th Edition

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Constitution for the United States of America

"In America a new people had risen up without king, or princes, or nobles....They were more sincerely religious, better educated, of serener minds, and of purer morals than the men of any former republic. ...[They had prepared a constitution which, in the union of freedom with strength and order, excelled every one known before....[It] is to the American people a possession for all ages." - George Bancroft, 1886.

"We have heard with our ears, O God,
our judgments have told us....
Righteousness exalteth
a nation...."
